

Thank you for helping us write Postcards to the Massport Board

Demanding Webcams for ICE Flights at Hanscom Field

Please use these scripts as a guide

1. ICE has taken thousands of New England residents out-of-state via Hanscom Field. I am urging Massport to install cameras at Hanscom so that lawyers can identify their clients and protect their due process rights.
2. Massport must install cameras at Hanscom to ensure due process.
3. Thousands of people have been removed from MA in violation of their rights. Ensure that families will know where their loved ones are by installing cameras now!
4. ICE is violating due process rights at Hanscom! Massport must install a camera system so that people can be identified before they are flown out-of-state.
5. ICE flights at Hanscom need oversight, accountability, and traceability. Massport must install a camera system now. Follow the example of King County Airport (KBFI).
6. Courts have ruled that ICE has illegally detained immigrants more than 10,000 times. Massport must install a camera system so that people can be identified by family and attorneys.
7. King County International Airport (KBFI) has had live cameras to monitor ICE flights in place since 2023 and maintains a flight log. Tell Massport to follow this example to ensure traceability and accountability for these flights.
